

# Scan Roof®

Old European Styling with Modern Metal Advantage

**Hurricane Resistant Metal Roofing System**

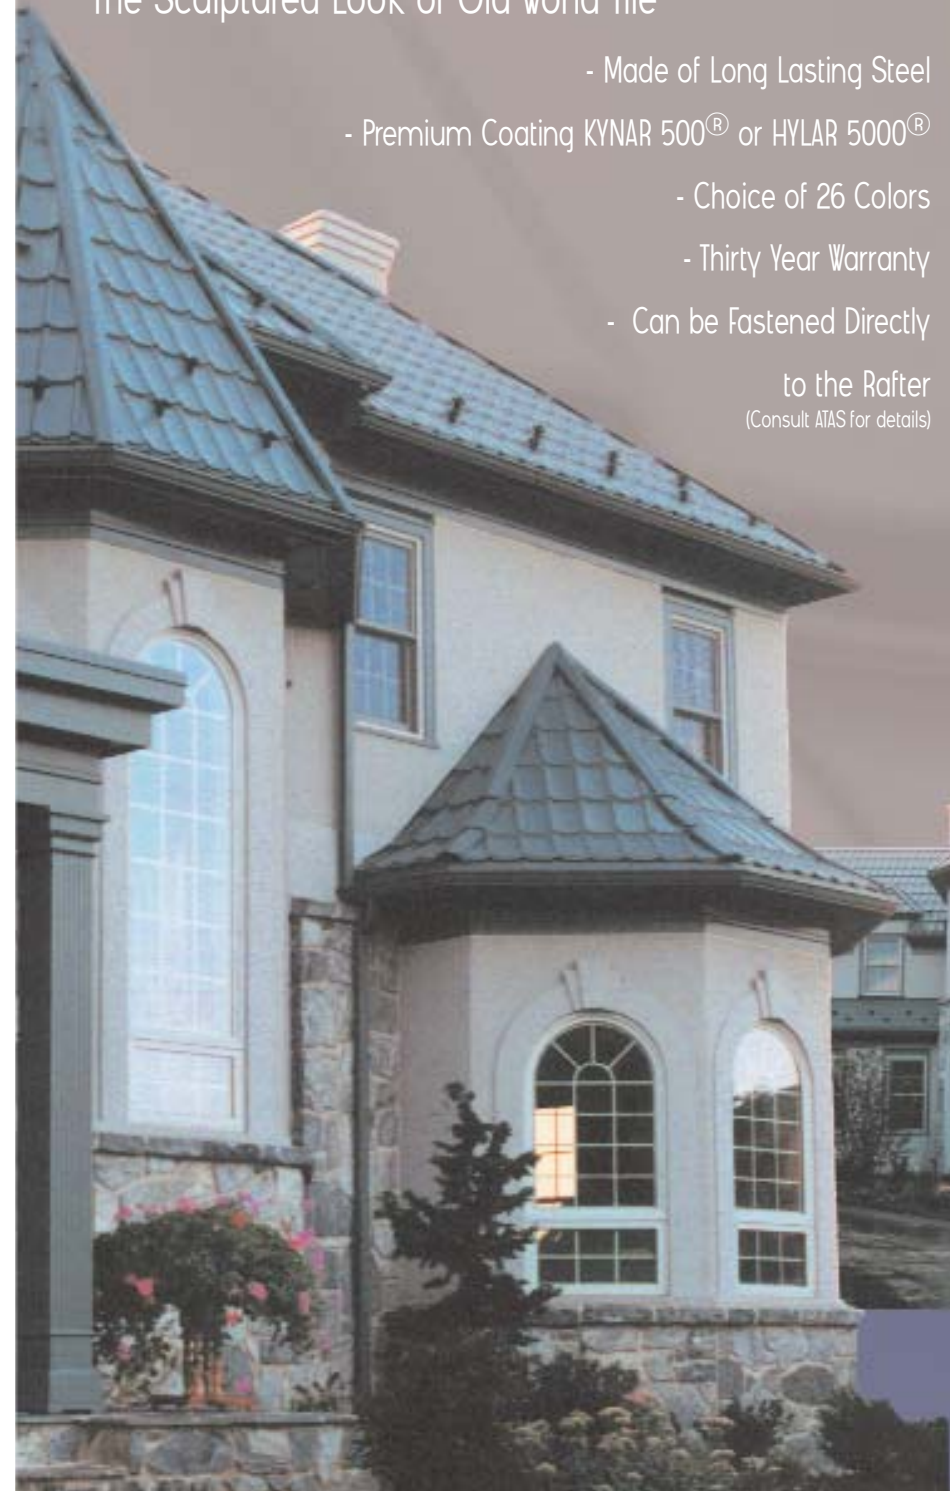

# Scan Roof

The Sculptured Look of Old World Tile

- Made of Long Lasting Steel
- Premium Coating KYNAR 500® or HYLAR 5000®
- Choice of 26 Colors
- Thirty Year Warranty
- Can be Fastened Directly

to the Rafter  
(Consult ATAS for details)

- Matching or Contrasting Accessories Available
- Relatively Low Maintenance
- Eliminates the need to Dispose of Old Roofing Material when Applied over Existing Roof
- ScanRoof is a Structural Panel
- Impact Resistant

SCANROOF is the ideal roofing system to stand up against mother nature's storms, typhoons, hurricanes, damaging winds and driving rains.

The panels are structural, practical and economically efficient for any project. Take a look at the following points:

One size (modular) panel for all projects

No exact measurements required for ordering

No battens required

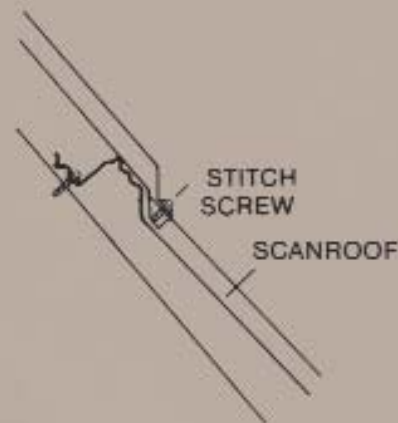

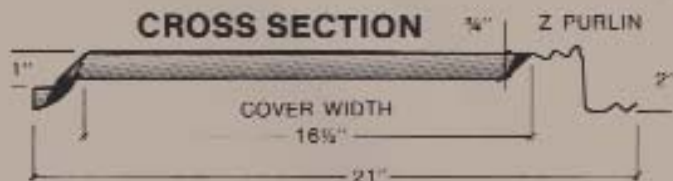

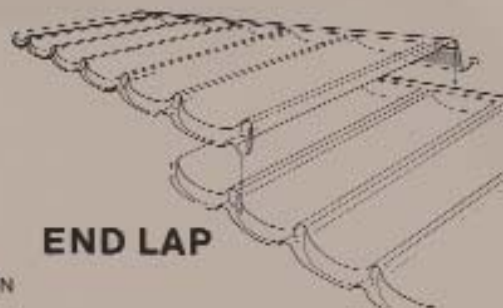

Scanroof has 15 - 20% less waste than a typical metal spanish tile product

The panel is fastened through the substrate into the truss

- Potential Savings on Heating and Cooling Costs
- Metal Roofing Releases Snow and Ice Easily
- Metal Roofing is environmentally sound
- Will not deplete Forests
- Metal is a recyclable material
- Lightweight panels are installed Horizontally
- May be Installed over the Old Roof in Some Cases

# Technical Data

SCANROOF has the following approvals:  
 UL580 Class 90, UL 790 Class A and B  
 UL 2218 Class 4 Impact Resistance  
 ICC Legacy Report ER-4623
